

Hello Scholarship Chairman:

My Motto is We can do this

My name is Jane Fox; I am your new scholarship chairman. Patti Williams had to step down. If you have mailed or emailed anything to Patti let me know, I don't have those reports yet,

You may know me from being VFW Aux Dept of SC Treasurer for almost six years. I have also served positions as President of 11079 and 10624, and Scholarship Chairman for an additional two years.

This year our focus should be on our Continuing Education Program. We need to get the word out, with the rising cost of college, trade schools etc., the scholarship that National is awarding is fantastic. As you know this scholarship is for Auxiliary members, spouses and their children. Everyone in the auxiliary needs to pass on this valuable information.

Someone said to me the other day that they pass out all the scholarship information but get nothing back. My thought is, are you following up. Please never give up.

My spouse gave a Patriots Pen application to a sixth grader last year, no response. He reached out this year, and we now have the application and the essay. Don't give up, keep trying.

Make sure all of your auxiliary members have the continuing education application.

Donate thru Malta to National President Lois Callihan's special project which is continuing education. Fill out a report and email it to me. Check with me the next day to make sure I have it.

Next up is Young American Creative Patriotic Art, 6-8 grade. Get into those schools and home schools. My auxiliary has a teacher that has added these art projects to their yearly curriculum

We get some excellent art out there from these young people. Drop the applications off at the church youth group paster, your nearest diner. Taking this from our National Scholarship Ambassador Philip Reinbold “use your imagination”. I know you all can do this.

3-Dimensional Art contest for grade 9-12. Remember when handing out the 3-D art applications that the students know they need to add a photo with the project before mailing it to the department. Make sure your student knows how important it is to pack their project carefully. Too much breakage has happened in the last few years,

This goes without really saying, I am always here to answer questions or come up with ideas.

Together we can accomplish anything this year. We need to Rosy and Robert the riveters, “we can do this “.

Taking Lyrics from the Supremes, “there’s’ no stopping us now”.
